

Find your next step
with ParentsNext.

Many mums and
dads getting
Parenting Payment
take part in
ParentsNext

ParentsNext
will help with
your next step

We will:

- listen to you.
- help you identify and achieve your education and employment goals.
- connect you with general support – like health, education, child care, housing and meeting other parents.

**ParentsNext is for parents
who:**

- ✓ have a child under 6 years of age
- ✓ haven't had paid work in the last 6 months
- ✓ have been getting Parenting Payment for the last 6 months.

**ParentsNext is family
friendly, so you can
bring your children to
appointments**

The ParentsNext office has a children's corner as well, so I can bring my son along to my appointments and he can play while we talk.

Cally, ParentsNext parent 2017

Will ParentsNext affect my payment?

Taking part in ParentsNext may be a requirement to keep receiving your payment.

You'll need to attend appointments and activities agreed with your provider.

ParentsNext are really lovely, and they understand that being a parent is unpredictable and busy. **They respect that your children are your first priority.**

Amy-Marie, ParentsNext parent 2017

"I knew I loved helping in the classroom. ParentsNext helped me get a working with children check. **And after that every step got easier. Now I'm training to be a teacher's aide.**"

Kelly, ParentsNext parent 2017

How ParentsNext has helped other parents

ParentsNext helped me go to college to finish year 11 and 12. The secondary college was set up with a free childcare facility so I knew that my kids were being looked after while I was in class - this made a big difference!

Ashleigh, ParentsNext parent 2017

I had a university qualification from another country but no English. **ParentsNext helped me and now I'm a part-time community case manager.**

Bouchra, ParentsNext parent 2017
